Legend

- Black dot: House
- Red dot: School
- Blue line: River
- Green area: Park

Scale: 1 cm = 100 m

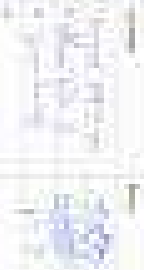

Map of a residential area showing the locations of houses, a school, a river, and a park.

1. The first step in the process is to identify the problem or issue that needs to be addressed. 2. The second step is to gather information and data related to the problem. 3. The third step is to analyze the information and data to identify the root cause of the problem. 4. The fourth step is to develop a plan of action to address the problem. 5. The fifth step is to implement the plan of action and monitor the results.	6. The sixth step is to evaluate the results of the plan of action and determine if the problem has been resolved. 7. The seventh step is to document the results of the process and share them with others. 8. The eighth step is to reflect on the process and identify areas for improvement. 9. The ninth step is to continue to monitor the situation and make adjustments as needed. 10. The tenth step is to celebrate the success of the process and the team.
